| Micro needling..... | \$200.00 |
| Lip blush..... | \$300.00 |
| Eyelash Lift..... | \$100.00 |

Microdermabrasion.....\$100.00

Medical microdermabrasion treatments help improve hyper pigmentation, mild scarring, fine lines, pore size, and aid in resurfacing aging/sun damaged skin.

Chemical Peels.....\$100.00

- *Glycolic Acid*
- *Salicylic Acid*
- *Lactic Acid*

A therapy to reduce and improve wrinkles, blemishes, pigment spots, and sun-damaged areas of the skin. Using a chemical solution of phenol, trichloroacetic acid, or alpha hydroxy fruit acid, the top skin layers are

peeled away, allowing new, smoother skin with tighter cells to occupy the surface.

Micro Peel.....\$125.00

The Micro Peel delicately and precisely clears dead cell build-up more efficiently than any other physical exfoliation method without causing any redness or dilation to blood vessels in the skin. This is a superior and exceptional treatment for Rosacea, mature and hypersensitive skin types.
